Importance: High

Ann,
Please see attached. I think this would be our best option for the charge master price.

Thank you,
Charles

Subject: RE: iStream and Chargemaster
Importance: High

Attached is the simplified Chargemaster.

Please bear in mind that the 10% increase in rates do not equal a 10% increase in revenue. The only payors that could pay the extra 10% are the commercial insurers, and the self pays. Eliminate the self pays as historically they pay very little anyway, which leaves only the commercially insured which would truly pay the additional 10%. This is why your projected net revenue does not reflect a full 10% increase.

Let me know if I can answer any additional questions.

BTW – do you have an idea of when you might be looking to implement?? If you can let me know by Tuesday afternoon, we should be able to implement in time for an October 1, 2015 start date, which would coincide with your fiscal year.

Rich,

I am interested in the flat rate with 10% increase. If I am looking at it right, it appears that will give us the most return. Can you get me a charge master price list to present in commissioners court?

Thank you,
Charles

Subject: iStream and Chargemaster
Importance: High

Good afternoon - -

First – Attached is a spreadsheet titled Wise County Check Count. These are the quantities of hard copy checks that have been processed in the past. You are averaging 135 checks per month. The fees for iStream are $9.99 per month, plus $0.13 per item. This being the case your costs would be in the vicinity of $27.54/month depending upon the exact number of checks processed, for you to convert to the iStream processes. Again, this would bring an additional level of reconciliation into the mix, as well as a quicker deposit into your bank than waiting for us to send you the hard copy checks.

Second – the other documents all pertain to your Chargemaster and projections (I know – I said next week but I got this done early for a change!). The document titled Wise Rev Model Base, is where you are currently at, and utilizing the last four years as a baseline, where you are projected to be after the conclusion of 2015 accounts maturing. The remaining documents present the concept of converting from a fully itemized Chargemaster to a flat rate Chargemaster.

The document Rev Model Net Zero is converting to a flat rate (note the 2015 numbers charge numbers) but yet the bottom line is relatively unchanged from the Base document. The remaining documents present other alternatives as well, such as converting to a flat rate concept while maintaining a difference for ALS/BLS, and then finally a flat rate model that considers a 10% increase (your fees have been unchanged since approximately 2005.)

I know the chargemaster items may seem confusing. It would take me a small novel to try and explain this fully in an email, so please give me a call if you have ANY questions about the flat rate concepts, or how the projections work out.

Also, I will be on the road traveling next week and could be in your area if needed for a sit down on this later in the week. Let me know if this would be something you would like to do so I can solidify my schedule and calendar accordingly.

Charles 2 questions

1. What is this invoice for? License for the ISTAT lab testing equipment

2. Requested fee charges last week from Barbara still have not received. Need for Court on the 28th to be approved. I am looking at changing some things on that and I will contact Ann.

Thanks
