

**WISE COUNTY, TEXAS**  
**ADDENDUM 2**  
**DENTON CREEK WATERSHED SITE 14-161**  
**BID 17-600-024**

The following information adds to, deletes, or changes information included in the original bid packet.

Forest Service does not have any objections to using their road for entry. Any damages done to the road will be the contractor responsibility to repair. The cattle guard is very narrow. The gate beside the cattle guard can be opened to get in the equipment. There will be some brush that will have to be removed to get the gate opened. Contractors need to consider this in bids. Map for new route will be provided at a later date as soon as it becomes available.

Acknowledge receipt of the above information on Exhibit A of each bid packet submitted.

**This amendment shall be attached to and become a part of the solicitation. Failure to acknowledge receipt of this amendment may render your bid non-responsive.**
