Our Mission

United Way of Wise County will be the recognized non-profit, community service leader in Wise County, Texas for bringing about positive impact to improve the lives of our residents and advance the common good. United Way of Wise County will improve people's lives by mobilizing the caring power of the Wise County community through efficient and highly effective community service fund-raising campaigns, donor investment strategies and collaboration with the best partner agencies for the delivery of important health and human service programs that our residents need. United Way of Wise County will achieve its Vision by accomplishing its Mission while maintaining the highest operating standards of public trust, integrity, accountability, transparency and compliance with public law and regulation.

HUMAN CARE SERVICES

100% of each dollar goes to human care services.

Over the last 9 years, we have invested over \$3.7 million in direct support of local community health and human service organizations providing assistance to Wise County residents. This year, once again, through the efforts of our Board of Directors, we will fund our operating budget from sources outside the Annual Campaign, which means 100% of your contribution toward our annual campaign will be used for program investment. This makes your United Way one of the most efficient non-profit organizations in the country! So please take a few moments to continue reading or visit our web site to learn more, then pledge a gift today. If we all work together, we can improve people's lives in Wise County.

You can make a difference!
